Our Aim :

Azam Construction And Developers Pvt.Ltd is the beautiful and unique township that we at Azam Construction And Developers Pvt.Ltd Group aim to build, specifically for the muslim community. This beautiful, environ friendly township is coming up on the Patna Bihar Highway, NH30, Patna. This township will have all the facilities, with the combination of the modern and the old age charm! At the centre of the town will be the beautiful Mosque. Other than that there will be a school, hospital, shopping complex/mall, a large park for children to play as well as for jogging. There will be a community centre, a restaurant and finally the resting place towards the end of our life's journey- a kabristan. All these will have a world class infrastructure as we believe in quality.

As a responsible citizen of the world there is an urgent need to take care of our planet we live in. For this just mere construction is not enough. We need to keep in mind every aspect so that it is environment friendly. From the planning to the site selection and the design, even to the material we use. Strategies are used to derive the maximum between construction and natural surroundings.

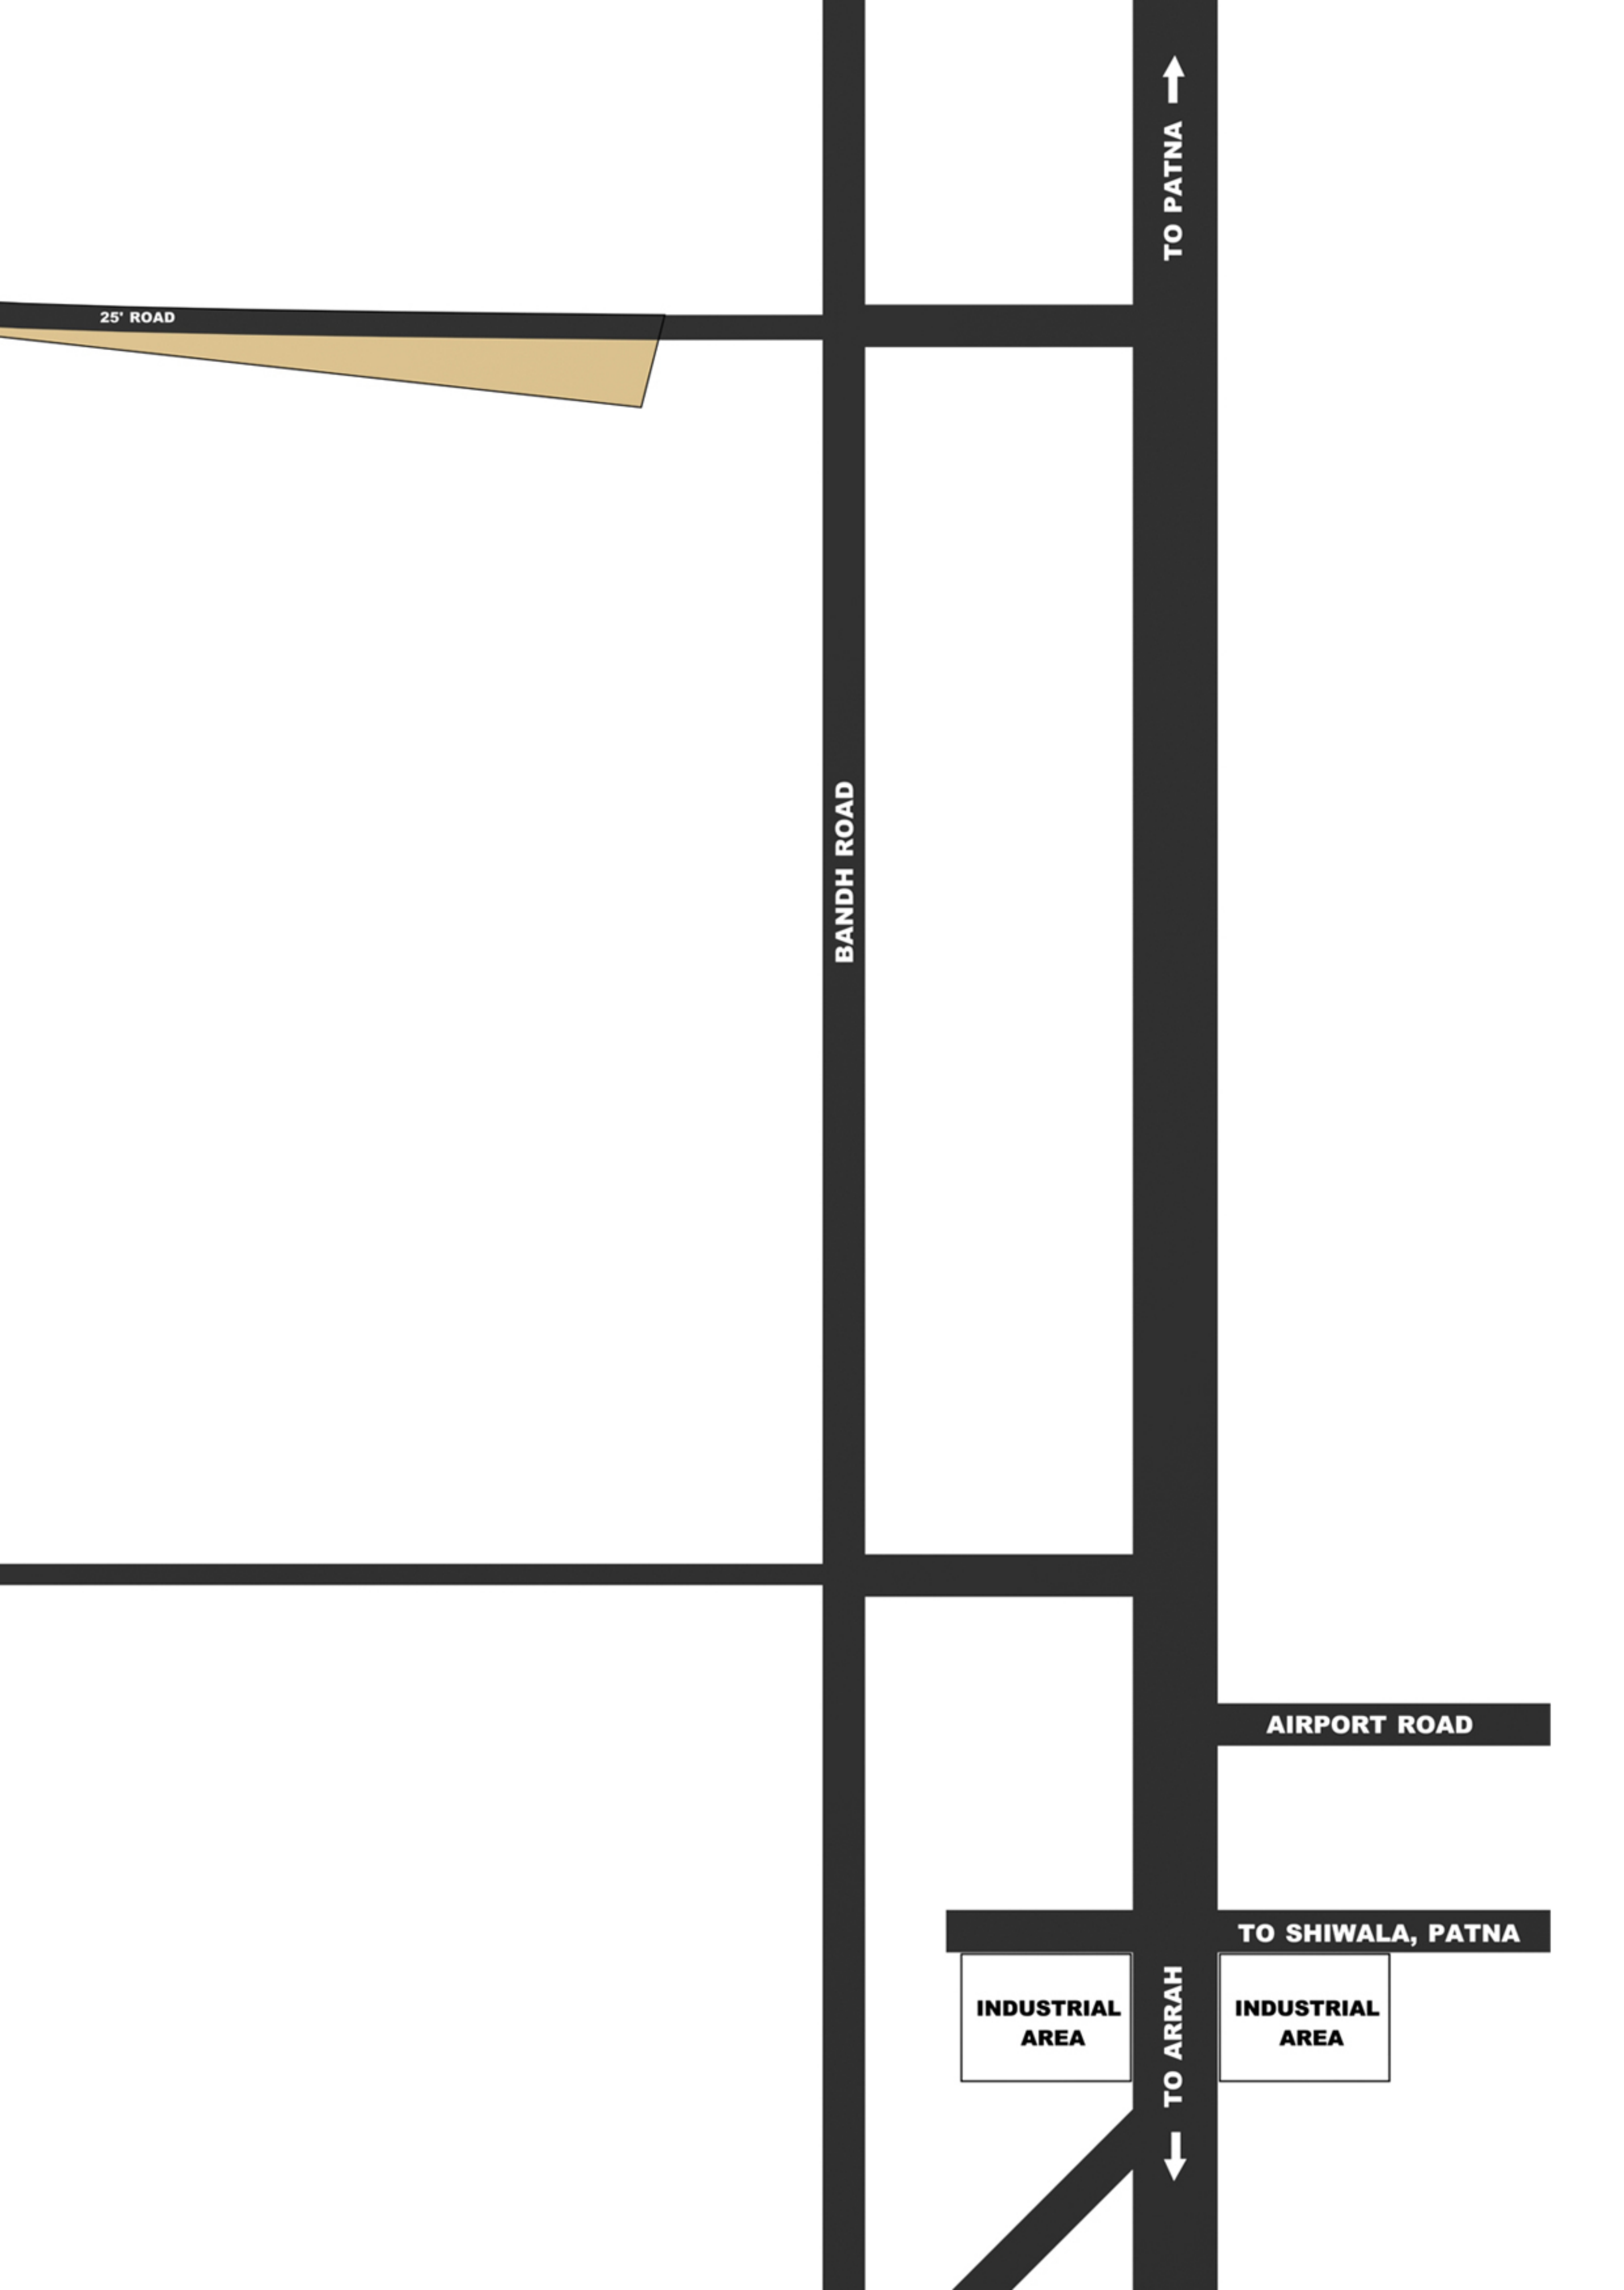

We have undertaken this project with a view to make better communities and make this world a peaceful haven. Every need is taken care of – be it from health care to education, and worship. The community centre will bring the people in touch with each other so that every incident, be it a happy or a sad one is shared. When problems are shared it becomes lighter. People will become more tolerant towards each other and there will not be any feeling of discrimination.

Each and every requirements of our clients according to the style, variety and affordability are met, and given due respect. There is no discrimination between the elite and the lower middle class.

Since this project is going to give due respect to nature, the air surrounding this township will not be polluted like in the cities. The residents will have the benefit of fresh air, which will let them lead a disease free life. Apart from this the beautiful structures will just take your breath away! One can imagine the magic of the old world charm and the awesome modern structures! We at Azam Construction And Developers Pvt.Ltd Group take pride in building this beautiful township with dreams of a wonderful and peaceful community thriving there.
